How can I find out where they lived?

Why isn't his wife on the census?

Which Church did they get married in?

My great grandad died in a pit accident. Are there any records?

### Family History Help Desk

Explore Wolverhampton Archives which hold a treasure trove of local history.

They contain collections of historical documents, deeds and records providing information about our past.

They help us explore our identities, underpin our family history and they connect generations with our stories from the past, to the present, to the future.

They help us to keep history alive.

The Friends of Wolverhampton Archives are an independent group of volunteers supporting the Archives.

Mysteries to unravel
